Summary

Engineering Leader specialized in Scalability and Globalization with 20+ years of experience in Software Engineering. At Nubank, I scaled the Bank Account Transfers Org & Platforms to support 100M+ customers and 2B+ transactions monthly, drove the platformization strategy that accelerated market entry into new geographies from years to months, and grew the engineering organization from 12 to 50+ members. Also, I held strategic leadership roles at Plataformatec and Brinks, where I shaped engineering organizations and platforms to support hyper-growth. My career includes a proven track record of delivering mission-critical projects at Itaú and Pernambucanas (Financial Division).

Core Pillars:

- Architectural & Platform Strategy in Hyper-Growth and Globalization (Server-side, DDD);
- Reliability at Scale (SLAs/SLOs, Systems Performance, Incident Management);
- Cloud Governance and Cost Efficiency in AWS (DDB, EC2, Cache, S3);
- Org Design for Staff+/EM+ structures (Definition, Hiring, Performance, Promotion);

Professional Experience

Nubank (5 yrs 9 mos)

Senior Software Engineering Manager (Nov 2024 - Nov 2025 · 1 yr 1 mo)

Responsible for the Datomic Core team

Software Engineering Manager (Sep 2021 - Nov 2024 · 3 yrs 3 mos)

As the leader of the Transfers team at Nubank, I have been responsible for the end-to-end development, scaling, and maintenance of our global payment platforms across Brazil, Mexico, and Colombia. These platforms include critical products like Pix, TED, and DOC in Brazil, SPEI in Mexico, and PSE in Colombia. Together, they form the foundation of Nubank's financial ecosystem, enabling millions of customers to securely and seamlessly transfer funds. Under my leadership, the team scaled to 50 engineers. I focused on building scalable, maintainable, and highly reliable systems, reducing reactive work by improving system robustness and fostering a proactive engineering culture. A key part of my role has been driving platform standardization to accelerate time-to-market for new countries and products, enabling rapid expansion while ensuring operational excellence. A continuous focus on process optimization and creating resilient, high-performance engineering teams matches my commitment to delivering exceptional customer experiences.

Software Engineering Manager (Mar 2020 - Sep 2021 · 1 yr 7 mos)

I managed a team of 15+ engineers, improving and maintaining the critical Credit Card operation platforms in Brazil. My leadership has resulted in the successful implementation of strategies that have increased operational efficiency and reduced operational burden. I have also developed comprehensive long-term plans to align business domains, skillfully negotiating and reallocating teams to various business areas to enhance operational efficacy.

Plataformatec (2 yrs 3 mos)

Sr Engagement Manager (Dec 2017 - Feb 2020 · 2 yrs 3 mos)

As a Customer Engagement Manager at Plataformatec, I have successfully managed \$3.9 million worth of USA customers and led a team of 14 developers in providing exceptional service in technology consultancy and staff augmentation. With a focus on full-stack web-development in Elixir and Ruby, I have achieved a growth of 22% YoY through successful negotiations and built strong relationships with customers resulting in a team growth of 286% in 2018. Additionally, I optimized revenue by 11% (\$130k) in 2019 through structured value proposals that ensured customer success and revenue. I am proud to have lead the first customer case study with a USA client, which can be viewed here: <https://www.youtube.com/watch?v=6A6eXFd8olw>.

Pernambucanas · Full-time (8 mos)

Program Manager (Apr 2017 - Nov 2017 · 8 mos)

Agile Consultant and responsible for delivery in Digital Channels tribe.

Brink's (3 yrs)

Software Engineering Manager (Sep 2013 - Aug 2016 · 3 yrs)

As an IT leader, I led the Retail Financial Integration organization where I led the cost reduction saving of R\$380,000 yearly, supported bussiness growth through creation of systems that enabled over R\$500,000 in revenues, and created the first app for Android and iPhone. I led stability efforts for credit and debit processing, implemented incident management and SLAs.

BRQ (1 yr 3 mos)

Senior Business Analyst (Jul 2012 - Sep 2013 · 1 yr 3 mos)

Experienced project manager with expertise in managing the implementation of large-scale projects, such as the "new tax system reports" project with 1600 hours of work. Skilled in requirements analysis and documentation using UML to ensure stakeholder needs are met and projects are completed on time and within budget. Proficient in project scheduling, risk management, progress tracking, and team leadership to achieve successful project outcomes. Strong communication and interpersonal skills to collaborate effectively with stakeholders and project teams.

Volunteering

High School Wallace Cockrane Simonsen

English Teacher (Jul 2004 - Dec 2004 · 6 mos)

Aulas voluntárias de inglês para comunidade carente.

Education

FIA Business School

MBA - Market Intelligence and Business Management, Business Administration and Management, General

Grade: 10

Market Intelligence and Business Management

Fatec São Bernardo do Campo Adib Moises Dib

IT and Business management, Information Technology

Grade: 9
